PRESS RELEASE – FEB 10, 2022
Rev1

CONSTRUCTION IN GOLDEN MEADOW
Elevated LA Hwy 1

A portion of the levee south of Golden Meadow is being degraded for the beginning of construction of the LA 1 Elevated Highway. James Construction Group will be constructing 300 Linear Feet of T-Wall. This T-Wall, which is part of the LA 1 Elevated Highway project, will cross the existing 17 ft. levee. Work on this T-Wall will begin this week and will be complete prior to the start of the upcoming Hurricane Season on June 1, 2022. The area will have an elevation of 21 ft. when finished.

This is to alert the public of construction on and around our levee located several hundred yards west of the current LA 1 highway. This construction will have no impact on traffic traveling in that area.

Windell Curole
